a "patent medicine." I has no secret ingredients Your doctor can, no doubt, tell you as much about it as we could. We have merely perfected the method of blending the Norwegian cod liver oil, hypophosphites of lime and soda and glycerine. As one grocer will blend coffee better than another so we have succeeded in making Scott's Emulsion a little better than any other cod liver oil preparation. There's no "patent" and the only secret is the secret of knowing how, with the perfected mechanical means at hand to do it. Get Scott's and you get the perfect emul-sion. It's the greatest thing in the world for regaining strength and flesh lost through wasting.

From the coffin-shaped box in which Osborne keeps his documentary evidence he drew a lot of newspaper clippings for Justice Devel to read. They were clippings of interviews which the Justice had with reporters just after Ahle's connection with Town Topics became public. Mr. Osborne said Mr. Happool had relied in part upon these in making the allegations which Justice Daudi says were libellous. This ended the cross-examination. He opened by asking Daudi his age.
